Facial Plastic Surgery

- Are there qualifications or training that distinguishes a facial plastic surgeon from a general plastic surgeon?

A facial plastic surgeon's training includes a five-year residency in Otolaryngology (head and neck surgery) and additional fellowship training in facial plastic and reconstructive surgery. Board certification is obtained through the American Academy of Facial Plastic Surgery. Dr Moynihan is a Facial Plastic Surgeon, with extensive training and expertise dedicated exclusively to cosmetic and reconstructive surgery of the face.

PROFESSIONAL EXAMINATION

Improve your Profile...

Nothing has a greater impact on how a person looks than the size and shape of his or her nose. Even a slight alteration to the nose, can result in a dramatic improvement to your facial balance. It is for this reason that rhinoplasty is one of the most common cosmetic surgeries performed by Dr. Moynihan. Computer digital imaging is used so that every patient can review their desired changes prior to surgery. Dr Moynihan approaches rhinoplasty with the goal of achieving 'natural-looking' results by matching the desired outcome within the balance of facial features.
